# Project Name: Serenity

## Overview

This document provides an overview of the travel blog website that focuses on showcasing the best cafes in Tagaytay, Amadeo, and Dasmarinas. It highlights the website's features, the technologies used, and instructions for running the project locally.

## Features

- Contact form for inquiries
- Detailed information about each destination
- Easy to navigate

## Technologies Used

**Frontend:**

- HTML
- CSS
- JavaScript
- Google Fonts for typography

## Usage

Navigate through the website to explore different destinations. Use the navigation menu to switch between pages. The contact form allows users to send inquiries directly from the site.

## Contribution

Contributions are welcome! If you have suggestions or improvements, please fork the repository and submit a pull request.

## Acknowledgments

- Google Fonts for the custom typography
- Adobe Stocks for Backgrounds
